

ConsumerVision

National Consumer Database

110 Million Households—220 Million Individuals
Base Price \$40.00 Per Thousand (M)

Includes Name, Address, City, State, Zip

Phones: +\$20.00/M

Minimum Order: \$350.00

Sources: America's Names has developed a multi-sourced and data-enriched consumer information product of transaction and response-driven elements that are demographically selectable for any marketing communication program from list generation to customer database enhancement. It contains actionable information on nearly 110 million households and 220 million individuals brought together "relationally" from pivotal file sources used for demographically selectable items at the individual, household and area level. It can also be selected by marketing segments like: Affluent Households, Computer Owners, Upscale Seniors and Grandparents, Hispanic Households, people interested in Investment and Finance; Mortgage-holders, and many more unique segments. **ConsumerVision** can also be used to identify Foreclosure, Liens, Refinance, Construction Loans, Adjustable Interest Rate, Mortgage Term, Second Mortgage, Loan Type, Loan Date, New Homeowner Hotlines, just to name a few.

Facts: **ConsumerVision** takes advantage of being processed against America's Names' in-house Change of Address and Postal Optimization products, which are run by its own proprietary CASS Certified Software. This database is updated monthly with ever growing demographic, household and individual counts. In addition to standard selections covering Exact Age, Household Income and presence of Children, America's Names is proud to present a complementary behavioral information component that is a 60 million household subset compiled from response surveys and interactive sources. This segment will serve to complement our data enhancement and list rental services by introducing psychographic data that defines the lifestyle characteristics, behavior and product interests of individuals whose social roles, activities, hobbies and habits can be matched to a specific offer and provide insight into their purchasing likelihood. **Consumer Vision** is a comprehensive and robust data solution for target marketing services.
